EXPERIENCE

Junior Fullstack

Nakhonratchasima, Thailand

March 2024 - May 2024

I assisted a senior student with a project by working on the user data system, displaying data, managing user information, and organizing the project's UI layout.

- Experience with front-end frameworks/libraries such as React,TailwindCSS
- Experience with back-end frameworks/libraries such as Go,Gin

EXTRACURRICULAR ACTIVITIES

• Design and Decoration for Graduation Booth

I was responsible for designing and decorating the graduation booth. This experience allowed me to connect with peers in my field and learn how to work collaboratively with others, improving my communication and teamwork skills.

• Freshman Orientation Activities in Dormitory

I was responsible for supervising and providing basic first aid. This experience taught me the importance of punctuality in my work and helped me develop skills in observing and assessing the health of others.
